

Below is my e-mail to CBA regarding their effort to alter the State of Indiana Telemarketing Law regarding "Do Not Call". My only comment is the same as my last in my e-mail...Quit messing with the privacy rights of the US citizens. Thank you

The "Do Not Call" List is one of the best pieces of legislation that directly effects the consumer that Indiana has. And, it has been set up in a way that the people have a choice.

If it is altered because of CBA's efforts, I for one would seriously consider changing my accounts if I would be contacted by a bank. As far as I am concerned, Fifth Third already borders on being totally unscrupulous.

If this law is messed with, I for one will no longer answer any incoming call unless I recognize the #, and/or will screen all calls by using my answering machine. When you start paying all US citizens phone bills, only then will you have the right to interrupt "private" citizens on their "private" phone lines.

Quit messing with the privacy rights of the US citizens.
